

Large, Stackable Shaker

Increased throughput & increased yields with
Innova® 44/44R Incubated Shaker

Tight temperature, speed and balance control: Temperature accuracy and uniformity: $\pm 0.1\text{ }^{\circ}\text{C}$ and $\pm 0.25\text{ }^{\circ}\text{C}$, notification at $\pm 0.5\text{ }^{\circ}\text{C}$ deviation; speed control: $\pm 1\text{ rpm}$ and notification at $\pm 5\text{ rpm}$ deviation; automatic imbalance detection

Easy door and platform handling: The space-saving door glides up and out of your way for easy access to all samples and easy service

De-centralized cooling: Every refrigerated device ($-20\text{ }^{\circ}\text{C}/-34\text{ }^{\circ}\text{F}$ below ambient) in a stack comes with its own integrated cooling unit, significantly lowering the impact in the unlikely case of failure

Saves money: No internal HEPA-filter that must be replaced annually to ensure sufficient airflow

Smart shaker drive control: Smooth acceleration and deceleration avoid splashing and mechanical damage; for safety, shaker stops, if door is opened or excessive imbalance

Programming: Continuous, timed, or multi-step programs with up to 15 steps, four programs storable

Cross-contamination control: Optional airflow UV-germicidal light outside the chamber

The Workhorse for Your Lab

Incubated, refrigerated and stackable up to three high

The Innova 44 and Innova 44R stackable incubator shakers both feature the Eppendorf triple-eccentric counterbalanced drive and are a time-proven enabler for many scientists around the world. These incubator shakers provide years of dependable operation. The cast iron support and counter balanced drive is specifically designed to enable high speed applications and heavy workloads. Innova 44/44R incubator shakers provide broad temperature capabilities and options for culturing a wide variety of organisms. The height clearance and platform size allows for multiple cultures in typical 5 L flasks.

Recommended applications:

- > Cultivation of (thermophile) bacteria, yeast, fungi, insect cells, e.g. for protein expression
- > Cultivation of algae or plant cells (photosynthetic light bank optional)
- > Media optimization
- > Mixing and shaking of samples (e.g. for staining, washing, extraction or hybridisation)
- > Solubility studies

Best fit for your lab needs: Three positioning bases are available: 10 cm, 30 cm, or 40 cm (4 in, 12 in, or 16 in)

Flexibility for various vessel formats: Various accessories are available including a sticky pad platform for low-speed shaking of flat bottom vessels.

Vibration- and trouble-free operation for years: Three weight-supporting shafts, nine permanently lubricated ball bearings and the large platform bearing surface support the platform load

Spill protected and easy to clean: The Innova triple-eccentric drive is protected from spills by the unique drainable spill pan with rounded corners. The spill pan can also be used as water reservoir to reduced medium evaporation.

Fast and easy service: A service drawer ensures quick access to all electronic and heating/cooling components without the need to move or unstack the shaker.

Everything at a glance: The large 240x128 backlit LCD display lets you check on actual readings and set points even from a distance. In addition to standard parameters, the relative humidity can be displayed if the optional Humidity Monitor is installed.

Shaker Accessory Guide

Built to Perform & Last

Unexpected downtime and late results are not an option for you? And do you have more important things to do than organize repair for your benchtop orbital shaker over the weekend? Since its introduction more than 50 years ago, the cast iron triple-eccentric drive from Eppendorf has been the gold-standard in our shaker drive technology. The heavy-duty construction of the triple-eccentric drive gives you confidence that our shakers will perform to your specifications, even when fully loaded and operating at top speed.

Peace of Mind – Your Service Options

Our Service Agreements – Your Advantages

With our basket of Service Agreement solutions, we take the load off your shoulders by simplifying your ordering and budgeting process for various services over the full life-time of your instruments.

Your costs become reduced and predictable, thereby assuring continuous productivity and a long service life. In addition, our agreements include repair costs – fully or partially – and discounts on other services.

	Innova® 44/44R	Comparable Shaker #1	Comparable Shaker #2
Capacity and compatibility			
Orbit options	2.5 or 5.1 cm (1 or 2 in)		
Platform size	76 × 46 cm (30 × 18 in)		
Max. flask size	6 L		
Drive type	Triple-eccentric counterbalanced (three shafts to support weight), nine permanently lubricated ball bearings		
Motor type	Solid state brushless DC		
Growth Conditions			
Speed range	25 – 400 rpm with 2.5 cm orbit; 25 – 300 rpm with 5.1 cm orbit or 2 stacked units; 25 – 250 rpm with 3 stacked units		
Speed increment	1 rpm		
Speed accuracy	±1 rpm		
Speed deviation alarm (visible & audible)	±5 rpm		
Temperature range	Incubated: ambient + 10 °C to 80 °C; Refrigerated: ambient -20 °C (min. 4 °C) to 80 °C (max. 70 °C with PS-light, 60 °C with rH-monitoring).		
Temperature increment	0.1 °C		
Ambient temperature	10 – 35 °C		
Temperature accuracy	±0.1 °C (at 30–40 °C)		
Temperature deviation alarm (Visible & audible)	±1 °C (heat turns off to regulate to setpoint, additional independent over-temperature cutoff included)		
Power outage behavior	Automatic restart to last setpoints after power is restored, indicated by flashing display		
Handling, Ergonomics, Service			
Programming of temperature or speed	Yes (15 steps, 4 programs storable)		
User interface	Large LCD display (12.5 × 6.5 cm/ 4.9 × 2.6 in), display of setpoint and actual values

Ready for the future of your lab

The Innova 44/44R is the perfect starting point to significantly increase the shaking capacity and application potential of your lab - with our latest stackable shaker, the Innova S44i. It offers even greater capacity and can be easily stacked on top of an existing Innova 44. The S44i also comes with more advanced programming, enhanced ergonomics, more comprehensive documentation, and user management.
