Get Peace of Mind

Qualified services from Eppendorf

With just one phone call or service request through our webpage you can access our network of highly skilled service professionals.

Our qualified service staff ensures timely and accurate solutions are provided with professional guidance and care.

epServices
for premium performance

From service agreements to on-demand services

You can choose from our comprehensive service portfolio to best suit your uptime requirements and budgetary needs while meeting national and international compliance norms and regulations.

Our manufacturer-trained service experts maintain the good working condition of your lab equipment throughout its full life cycle. This helps you concentrate on achieving the reliable results you are looking for.

The Full Value

We are committed to providing reliable services and tools. This includes a comprehensive range of carefully designed service solutions performed by our dedicated technical service teams worldwide. Eppendorf offers a range of

preventive maintenance and qualification services and service agreement options for consistent instrument performance as well as confidence in their safe operation.

On-demand Services

Installation Service

Installation and commissioning performed by an Eppendorf service technician.

IQ/OQ GxP

For customers working in regulated environments we offer our specifically created and revised Installation Qualification and Operational Qualification services including GxP-compliant documentation. These services provide you with qualified assurance that your instrument functions correctly and in accordance with manufacturers' specifications.

Preventive Maintenance

Our professional maintenance services are aimed at the prevention of unexpected downtimes and failures through early detection of problems. Keeping your instruments in perfect working order extends their service life and increases your productivity.

Agreements

AdvancedCare

Includes a full annual preventive maintenance service program for assuring instrument reliability and uptime; 20% discount on parts, labor and travel; 10% discount on additional services (e.g., IQ/OQ) during the agreement period.

PremiumCare

Includes a full annual preventive maintenance service program for assuring instrument reliability and uptime; unlimited travel, spare parts and labor on repairs included in the agreement; 10% discount on additional services (e.g., IQ/OQ) during the agreement period.
